## **Channel Number - 14 (Morning Shift)**

Day	S1 (8:00)	S2 (9:00)	S3 (10:00)	S4 (11:00)	S5 (12:00)	S6 (13:00)	S7 (14:00)	S8 (15:00)
Monday	Basic Electrical Technology (E58)	Control Engineering (E19)	Antennas (E27)	Advanced Control Systems (E49)	Networks and Systems (E82)	Stochastic Control and Communication (E141)	Applied Linear Algebra for Signal Processing, Data Analytics a (E127)	Energy Resources & Technology (E72)
Tuesday	Basic Electronics (E110)	Analog Electronic Circuits (E56)	Industrial Drives- Power Electronics (E20)	Circuit Analysis for Analog Designers (E137)	Design of Power Electronic Converters (E133)	Digital System Design (E22)	Digital Protection of Power System (E139)	Neural Science for Engineers (E132)
Wednesday	Circuit Theory (E32)	Industrial Instrumentation (E14)	Electromagnetic Fields (E43)	Industrial Automation and Control (E39)	Advanced Electric Drives (E51)	Photonic Integrated Circuit (E130)	Design and Analysis of VLSI Subsystems (E138)	Stochastic Modeling and the Theory of Queues (E124)
Thursday	Basic Electrical Technology (E58)	Control Engineering (E19)	Antennas (E27)	Advanced Control Systems (E49)	Networks and Systems (E82)	Stochastic Control and Communication (E141)	Applied Linear Algebra for Signal Processing, Data Analytics a (E127)	Energy Resources & Technology (E72)
Friday	Basic Electronics (E110)	Analog Electronic Circuits (E56)	Industrial Drives- Power Electronics (E20)	Circuit Analysis for Analog Designers (E137)	Design of Power Electronic Converters (E133)	Digital System Design (E22)	Digital Protection of Power System (E139)	Neural Science for Engineers (E132)
Saturday	Circuit Theory (E32)	Industrial Instrumentation (E14)	Electromagnetic Fields (E43)	Industrial Automation and Control (E39)	Advanced Electric Drives (E51)	Photonic Integrated Circuit (E130)	Design and Analysis of VLSI Subsystems (E138)	Stochastic Modeling and the Theory of Queues (E124)
Sunday								

## **Channel Number - 14 (Evening Shift)**

Day	S1 (16:00)	S2 (17:00)	S3 (18:00)	S4 (19:00)	S5 (20:00)	S6 (21:00)	S7 (22:00)	S8 (23:00)
Monday	Circuit Theory (E32)	Industrial Instrumentation (E14)	Electromagnetic Fields (E43)	Industrial Automation and Control (E39)	Advanced Electric Drives (E51)	Photonic Integrated Circuit (E130)	Design and Analysis of VLSI Subsystems (E138)	Digital Image Processing (E65)
Tuesday	Basic Electrical Technology (E58)	Control Engineering (E19)	Antennas (E27)	Advanced Control Systems (E49)	Networks and Systems (E82)	Stochastic Control and Communication (E141)	Applied Linear Algebra for Signal Processing, Data Analytics a (E127)	Energy Resources & Technology (E72)
Wednesday	Basic Electronics (E110)	Analog Electronic Circuits (E56)	Industrial Drives- Power Electronics (E20)	Circuit Analysis for Analog Designers (E137)	Design of Power Electronic Converters (E133)	Digital System Design (E22)	Digital Protection of Power System (E139)	Neural Science for Engineers (E132)
Thursday	Circuit Theory (E32)	Industrial Instrumentation (E14)	Electromagnetic Fields (E43)	Industrial Automation and Control (E39)	Advanced Electric Drives (E51)	Photonic Integrated Circuit (E130)	Design and Analysis of VLSI Subsystems (E138)	Stochastic Modeling and the Theory of Queues (E124)
Friday	Basic Electrical Technology (E58)	Control Engineering (E19)	Antennas (E27)	Advanced Control Systems (E49)	Networks and Systems (E82)	Stochastic Control and Communication (E141)	Applied Linear Algebra for Signal Processing, Data Analytics a (E127)	Energy Resources & Technology (E72)
Saturday	Basic Electronics (E110)	Analog Electronic Circuits (E56)	Industrial Drives- Power Electronics (E20)	Circuit Analysis for Analog Designers (E137)	Design of Power Electronic Converters (E133)	Digital System Design (E22)	Digital Protection of Power System (E139)	Neural Science for Engineers (E132)
Sunday								

## **Channel Number - 14 (Night Shift)**

Day	S1 (00:00)	S2 (01:00)	S3 (02:00)	S4 (03:00)	S5 (04:00)	S6 (05:00)	S7 (06:00)	S8 (07:00)
Monday	Basic Electronics (E110)	Analog Electronic Circuits (E56)	Industrial Drives- Power Electronics (E20)	Analog ICs (E44)	Design of Power Electronic Converters (E133)	Digital System Design (E22)	Digital Protection of Power System (E139)	Neural Science for Engineers (E132)
Tuesday	Circuit Theory (E32)	Industrial Instrumentation (E14)	Electromagnetic Fields (E43)	Industrial Automation and Control (E39)	Advanced Electric Drives (E51)	Photonic Integrated Circuit (E130)	Design and Analysis of VLSI Subsystems (E138)	Digital Image Processing (E65)
Wednesday	Basic Electrical Technology (E58)	Control Engineering (E19)	Antennas (E27)	Advanced Control Systems (E49)	Networks and Systems (E82)	Stochastic Control and Communication (E141)	Applied Linear Algebra for Signal Processing, Data Analytics a (E127)	Energy Resources & Technology (E72)
Thursday	Basic Electronics (E110)	Analog Electronic Circuits (E56)	Industrial Drives- Power Electronics (E20)	Circuit Analysis for Analog Designers (E137)	Design of Power Electronic Converters (E133)	Digital System Design (E22)	Digital Protection of Power System (E139)	Neural Science for Engineers (E132)
Friday	Circuit Theory (E32)	Industrial Instrumentation (E14)	Electromagnetic Fields (E43)	Industrial Automation and Control (E39)	Advanced Electric Drives (E51)	Photonic Integrated Circuit (E130)	Design and Analysis of VLSI Subsystems (E138)	Stochastic Modeling and the Theory of Queues (E124)
Saturday	Basic Electrical Technology (E58)	Control Engineering (E19)	Antennas (E27)	Advanced Control Systems (E49)	Networks and Systems (E82)	Stochastic Control and Communication (E141)	Applied Linear Algebra for Signal Processing, Data Analytics a (E127)	Energy Resources & Technology (E72)
Sunday
